

# My AOA Mobile App

AMERICAN  
OSTEOPATHIC ASSOCIATION

## How to Download

Access either the Apple App Store or the Google Play App Store from your mobile device.

Search for your “My AOA” app and download it for free.

Your username and password are the same as your Osteopathic.org login credentials.

Need assistance with your login? Please visit:

<https://accounts.osteopathic.org/login/forgotpassword>

Images shown are from an iPhone.  
Android users will have the same functionality, but with a different interface.

## Navigating the App

Read, like and share the latest news, announcements, and tweets from the AOA in the **News Feed**.

Switch to the AOA Twitter feed by clicking **Twitter** at top of the News Feed screen. You can then share or like posts through your Twitter app.

Use **My AOA** to visit your AOA dashboard on Osteopathic.org. You can view CME reports, check AOA Board Certification details, update information on your AOA record, and more.

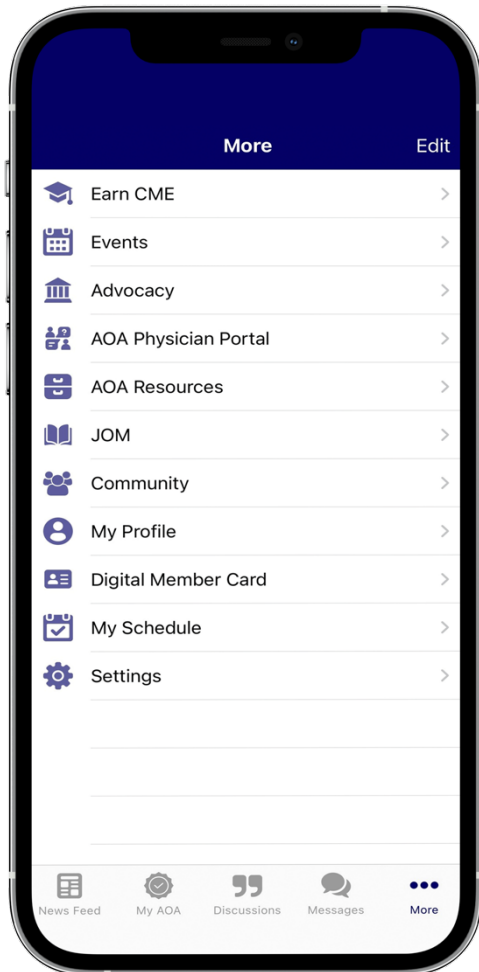

Access **Discussions** to post questions and respond to others in the osteopathic community. Your view is personalized based on your practice specialty, volunteer role, and career stage. You can add a discussion of interest to your News Feed by using the (+) Follow option.

Visit **Messages\*** to send direct or group messages to other My AOA app users.

*\* Direct and Group messaging is a feature for AOA members only.*

Images shown are from an iPhone.  
Android users will have the same functionality, but with a different interface.

## Navigating the App, via 'More'

**Earn CME** leads to the AOA's list of live and on-demand CME opportunities.

**Events** shows upcoming AOA events that are available through the app.

**Advocacy** has information on the Osteopathic Advocacy Network (OAN) and the AOA's active legislative campaigns.

**AOA Physician Portal** is the one-stop-shop for viewing and accessing AOA certification, OCC status, your current CME report, AOA online learning courses, and self-reporting of your CME credits.

**AOA Resources** contains links and resources personalized to you.

**JOM** gives quick, convenient access to the *Journal of Osteopathic Medicine* site for the latest research in osteopathic medicine.

**Community\*** is a directory of all AOA members who are registered app users. Connect with your friends and colleagues - view profiles, save favorites and send direct messages.

**My Account** allows you to view or edit your own profile, review any notes you've made and access items you've bookmarked.

**Digital Member Card\*** displays a QR code for other AOA members to scan and save.

**My Schedule\*** lists any events that you have saved to your schedule.

**Settings** offers options to update your account details within the app and to manage notification settings.

*\*Features accessible by AOA members only*

## FAQs

### How do I download the app?

My AOA is available in both the Apple App and Google Play App stores. Simply click the links or search for “My AOA” in your preferred app store to get started.

### How do I log in to the app?

Your username and password are the same as your Osteopathic.org login credentials. If you need assistance with your login, get help at <https://accounts.osteopathic.org/login/forgotpassword>, or reach out to our Member Resource Center at (312) 202-8000.

### What features will I find in the app?

My AOA provides quick and on-the-go access to news, tools and resources for osteopathic physicians and medical students, including member benefits, events, CME tracking, community discussions and more.

### Why can't I see everything that my colleague can see?

My AOA is personalized to you. Additionally, some features are for AOA members only. You will see content, posts, discussions, and resources that are personalized based on your interests, career level, specialty, and member status. If you're not yet an AOA member and would like to access the app's full set of features and functions, please take a moment to [join the AOA](#).

### How do I report inappropriate conduct?

To report inappropriate content contributed by a user, please contact the AOA at [MemberService@osteopathic.org](mailto:MemberService@osteopathic.org) for review and possible action. The AOA has sole discretion to take any action deemed necessary or appropriate regarding removal of any user content and/or the termination or suspension of a user's access to the My AOA application. The AOA shall remove any user content that it believes is inappropriate for any reason. Such inappropriate content includes, but is not limited to, infringing upon any intellectual property rights or other rights of any person or entity, or threatening the personal safety of others.

### Will there be more functionality added in the future?

More features and functions are coming! The AOA will continue to add resources and content on a regular basis to add value and respond to user feedback.

### What should I do if I find a problem with the app?

Let us know! Please report any issues or suggestions for improvement to [MemberService@osteopathic.org](mailto:MemberService@osteopathic.org).
