

# Curriculum for Approved OGME -1 Training Year

(Updated January 2018)

## Traditional Rotating Internship

- Minimum of 6 months training in any or all basic core disciplines
  - general internal medicine
  - general surgery
  - family practice
  - pediatrics
  - obstetrics/gynecology (ambulatory gynecology)
  - emergency medicine
- At least 2 months general internal medicine
- At least 1 month emergency medicine
- At least 1 month family medicine in a hospital or ambulatory site **OR** one ½ day per week (for a minimum for 46 weeks) of ambulatory exposure in a family medicine continuity of care type practice site
- All remaining time may be scheduled at the discretion of the training institution

\*No more than 1 month may be spent in non-clinical experience (research, scholarly pursuits, administration, etc.).

\*No more than 3 months of elective exposure adequate to meet the individual needs of the interns.

---

## Anesthesiology -1st Year Requirement

- 1 month of critical care
- 3 months of in-patient internal medicine relevant to the practice of anesthesiology
- 2 months of surgery, one of which is general surgery and the other to include one of the following:
  - vascular
  - orthopedic
  - urologic
  - ENT
- 1 month of pediatrics (inpatient or ambulatory). Where a rotation in pediatrics cannot be obtained, a rotation in family medicine where there is an emphasis on the care of pediatric patients may be substituted.
- 1 month of obstetrics and gynecology, if available, or female reproductive medicine
- 4 months (**maximum**) of anesthesia

---

## Dermatology – 1st Year Requirement

\* Refer to Traditional Rotating Internship

---

## **Diagnostic Radiology - 1st Year Requirement**

- 1 month of emergency medicine
  - 1 month of family practice
  - 2 months of surgery
    - 1 month of general
    - 1 month of orthopedic
  - 2 months of internal medicine
    - 1 month of general
    - 1 month of ICU
  - 1 month of pediatrics
  - 1 month of obstetrics/gynecology
  - 1 month of elective
  - 3 months diagnostic radiology
- 

## **Emergency Medicine - 1st Year Requirement (guide only)**

- 1 month general internal medicine
- 2 months (or 8 weeks) of additional medicine that may include training in general internal medicine, medical subspecialties, or hospital family practice in any combination.
- 1 month (or 4 weeks) of hospital-based general surgery
- 2 months (or 8 weeks) of additional surgical training in either ambulatory or hospital settings. These eight (8) weeks may consist of:
  - General surgery.
  - Any surgical subspecialty.
  - Free-standing ambulatory surgery, on or off campus.
  - Gynecological surgery.
  - Emergency medicine.
- 1 month (or 4 weeks) of training in female reproductive medicine with a minimum of 50% of this time spent in obstetrics
- 1 month (or 4 weeks) of pediatrics with a minimum of 50% of ambulatory training which will be defined by the training institution. Strong consideration should be given to a pediatric emergency medicine rotation
- Four months (or 20 weeks) of emergency medicine that will be conducted under the supervision of a board certified/board eligible emergency medicine physician in an institution approved for residency training in emergency medicine.

\*Per the American Osteopathic College of Osteopathic Emergency Physicians (ACOEP), at least four months/blocks of emergency medicine “must” be scheduled each training year. All other OGME-1 rotations are at the discretion of the program.

---

## **Family Medicine and OMT - 1st Year Requirement**

- 2 months general internal medicine (inpatient IM or FM Service)
- 1 month women’s health
- 1 month pediatrics and adolescent medicine

- 1 month general in-patient surgery
- 1 month emergency medicine
- 150 continuity patient visits (minimum 40 weeks)

### **Family Medicine and Emergency Medicine - 1st Year Requirement**

- 3 months emergency medicine
  - 1 month surgery (trauma or general surgery)
  - 1 month critical care
  - 150 continuity patient visits (minimum 40 weeks)
  - 1 month elective
  - All other rotations as specified in the basic standards for both osteopathic emergency medicine and osteopathic family medicine
- 

### **Family Medicine Integrated NMM - 1st Year Requirement**

\* Refer to Family Medicine and OMT

---

### **Internal Medicine - 1st Year Requirement**

- 4 months general internal medicine
- 1 month critical care (ICU/CCU), or ongoing supervised exposure to critical care throughout the training program;
- 1 month cardiology;
- 1 month weeks of care of the surgical patient to be selected from one of the following:
  - general surgery
  - perioperative medicine
  - surgical ICU
- 1 month of emergency medicine;
- 1 month of women's health, at least half of which must be ambulatory gynecology
- 3 months electives that are chosen by the program director. Each of the electives can be only for one month, except additional general medicine which may be for two more months. Acceptable electives are as follows:
  - any internal medicine subspecialty
  - additional general internal medicine,
  - ICU
  - geriatrics
  - palliative medicine
  - radiology
  - anesthesia
  - neurology
  - psychiatry
  - osteopathic manipulative medicine
  - dermatology
  - pediatrics
  - family medicine

- nonmedical surgical ambulatory specialty such as orthopedics, ENT, urology or ophthalmology
- A minimum of one ½ day per week (36 weeks) of continuity ambulatory care in internal medicine under the supervision of an onsite internist

---

**Internal Medicine/Emergency Medicine - 1st Year Requirement**

- 4 months of emergency medicine
- 3 months general internal medicine (2 months hospital based, 1 month ambulatory)
- 1 month hospital-based cardiology
- 1 month adult critical care (ICU/CCU) which may be satisfied by ongoing supervised exposure to critical care throughout the training program
- 1 month care of the surgical patient. Must be satisfied by one of the following:
  - general surgery
  - perioperative surgery
  - surgical ICU

---

**Internal Medicine Integrated NMM - 1st Year Requirement**

\*Refer to Internal Medicine

---

**Internal Medicine/Pediatrics - 1st Year Requirement**

- 3 months pediatrics
- 3 months general internal medicine (2 months hospital based, 1 month ambulatory)
- 1 month pediatric critical care (NICU/PICU)
- 1 month adult critical care (ICU/CCU) which may be satisfied by ongoing supervised exposure to critical care throughout the training program
- 1 month newborn nursery
- 1 month hospital-based adult cardiology or pulmonary medicine
- 1 month care of the surgical patient. Must be satisfied by one of the following:
  - general surgery
  - perioperative surgery
  - surgical ICU
- 1 month women's health (at least half of the exposure must be ambulatory gynecology)

---

**Neurology - 1st Year Requirement**

- 2 months neurology
- 1 month emergency medicine
- 1 month surgery selective that can include:
  - vascular
  - neurosurgery
  - orthopedics
- 1 month elective (as agreed upon with the program director)
- 7 months internal medicine to include:
  - 1 month cardiology

- 1 month ICU rotation (minimum)
- 3 months general internal medicine
- 2 months elective internal medicine

### **Neuromuscular Medicine and OMT - 1<sup>st</sup> Year Requirement**

- 2 months general internal medicine
  - 1 month in emergency medicine
  - 1 month general surgery
  - 1 month of family medicine (may also be met in 1/2 day per week family medicine continuity clinic for a minimum of 46 weeks)
  - 1 month of pediatrics
  - 1 month of obstetrics and gynecology or ambulatory gynecology
  - 3 months of electives (1 month strongly recommended as OMM)
  - 2 months at discretion of program.
- 

### **Ob/Gyn - 1<sup>st</sup> Year Requirement**

- 2 months general internal medicine
- 1 month critical care
- 1 month emergency medicine
- 1 month general surgery
- 2 months gynecologic surgery
- 1 month neonatology
- 3 months hospital-based obstetrics
- 1 month of OB/GYN Ultrasound

\*Must spend one-half day per week throughout the four years of residency, when in obstetrics or gynecological surgery, in an obstetrical or gynecology clinic.

---

### **Ophthalmology - 1<sup>st</sup> Year Requirement**

- 3 months internal medicine
- 2 months neurology/neurological surgery
- 1 month surgical subspecialty:
  - ophthalmologic
  - neurological
  - maxillofacial
  - vascular, plastic
  - general
- 1 month internal medicine subspecialty:
  - pulmonary
  - neurology
  - dermatology
  - gastroenterology
  - rheumatology

- family medicine
  - internal medicine
  - 1 month radiology/neuroradiology
  - 1 month emergency department/trauma
  - 1 month ICU
  - 1 month ophthalmology
  - 1 month elective (from internal medicine or surgical subspecialty, lists above)
- 

### **Orthopedic Surgery - 1st Year Requirement**

- 2 months internal medicine
  - 1 month emergency medicine
  - 3 months general orthopedic surgery
  - 1 month rotation of family medicine
  - 2 months rotations of non-orthopedic surgery or vascular, general trauma, basic wound/burn/plastics, urology
  - 3 months electives upon approval of the program director which may include any of the following areas:
    - General orthopedic surgery
    - Foot and ankle
    - Hand
    - Hip and knee
    - Shoulder and elbow
    - Spine
    - Sports medicine
    - Pediatrics or pediatric orthopedics
    - Anesthesiology
    - Radiology
    - Pain management
    - Neurology
    - Neurosurgery
    - Physical medicine and rehabilitation
- 

### **Otolaryngology/Facial Plastic Surgery - 1st Year Requirement**

- 4 months hospital-based general surgery
- 1 month medical pediatrics
- 1 month anesthesia
- 1 month ICU
- 1 month emergency room
- 1 month surgical subspecialty:
  - ophthalmologic
  - neurological
  - vascular

- maxillofacial
  - plastic
  - cardiovascular
  - general
  - 1 month medical subspecialty
    - pulmonary
    - neurology
    - family medicine
    - gastroenterology
    - dermatology
    - internal medicine
  - 2 months elective (from surgical subspecialty or medical subspecialty list above)
- 

### **Pathology- 1<sup>st</sup> Year Requirement**

- 3 months general internal medicine
  - 3 months family medicine
  - 2 months general surgery
  - 1 month hematology/oncology
  - 1 month ob/gyn
  - 1 month pathology
  - 1 month elective
- 

### **Pediatrics - 1<sup>st</sup> Year Requirement**

- 1 month surgical experience from one of the following:
  - general or pediatric surgery
  - perioperative medicine
  - surgical intensive care
  - pain management
- 1 month general internal medicine. Can include the following:
  - allergy
  - neurology
  - rehabilitation medicine
  - addiction medicine
  - family medicine
  - hospital night float
  - adolescent medicine
  - dermatology
  - anesthesiology
  - OMM
- 1 month women's health from one of the following:
  - perinatal medicine
  - female reproductive medicine
  - ambulatory gynecology or pediatric/adolescent medicine
  - family planning

- sexually transmitted infections clinics
- 1 month emergency medicine or pediatric emergency medicine
- 1 month newborn nursery
- 1 month NICU
- 2 months general in-patient pediatrics
- 2 months ambulatory pediatrics which may include the following:
  - newborn nursery
  - inpatient care
  - NICU/PICU or pediatric night float
- 2 months additional training in pediatric subspecialty area
- one ½ per week continuity of care clinic throughout the year

\*Newborn nursey may be combined with other rotations that include a normal newborn service

---

### **Physical Medicine and Rehabilitation - 1st Year Requirement**

\* Refer to Traditional Rotating Internship

---

### **Proctologic Surgery - 1st Year Requirement**

- 4 months proctology
  - 2 months internal medicine
  - 2 months general surgery
  - 2 months night shift
  - 1 month emergency medicine
  - 1 month ob/gyn
- 

### **Psychiatry - 1st Year Requirement**

- 4 months of primary care
  - 2 months of neurology
  - 6 months of psychiatry (maximum)
- 

### **Radiation Oncology - 1st Year Requirement**

- 1 month emergency medicine
- 1 month family medicine
- 2 months of surgery
  - 1 month general
  - 1 month orthopedic
- 2 months of internal medicine
  - 1 month general
  - 1 month ICU
- 1 month pediatrics

- 1 month ob/gyn
  - 1 month elective
  - 1 month diagnostic radiology
  - 1 month medical oncology
  - 1 month radiation oncology
- 

### **Surgery – General, Neurological and Urological - 1<sup>st</sup> Year Requirement**

- 2 months general internal medicine
- 1 month ICU
- 1 month emergency medicine
- 4 months general surgery
- 4 months electives to include any of the following areas:
  - urology
  - orthopedics
  - anesthesia
  - ENT
  - general surgery
  - vascular surgery
  - neurosurgery
  - cardiovascular thoracic surgery
  - plastic and reconstructive surgery
  - radiology
  - one month female reproductive medicine
  - one month pediatrics, if available, or other primary care specialty at the discretion of the training institution
- Rotations for ½ day (46 weeks) in an out-patient clinic or office
